| Field 1. Expansion of Women's Participation in Policy Decision-making Processes |  |  |  |
| (Note: The government keeps these targets in mind when requesting political parties for actions. These targets are thus goals for the government to strive for, which don't restrict the independent action of political party, nor require achievement by a political party on its own.) |  |  |  |
| Proportion of female candidates for the House of Representatives | $\begin{gathered} 35 \% \\ (2025) \end{gathered}$ | $\begin{aligned} & 17.8 \% \\ & (2017) \end{aligned}$ | $\begin{aligned} & 17.7 \% \\ & (2021) \end{aligned}$ |

(Note: The followings are the targets that represent the figures expected to be achieved as a whole through government initiatives, including requests to political parties, etc., promotion of visualization, fact-finding surveys, sharing of good practicies, and improvement of the environment, as well as collaboration with political parties, the Diet, local government bodies, the six local organizations, and other relevant actors. It neither adds constrains to autonomous action by each organizaiton nor is a target each organization aims to achieve. Figures as of planning and current status represents the total for prefectural, ordinance-designated city, and municipal assembly elections in the 2019 nationwide local elections.)
