The Fourth Basic Plan for Gender Equality (Summary) [Approved by the Cabinet in December 2015]

To foster gender equality-related measures in a comprehensive and planned manner based on the Basic Act for Gender Equal society, basic approach through 2025, long-term governmental policy directions and specific measures implemented by 2020 are set in the Fourth Basic Plan.

Part 1  Core Concepts

1) Made vibrant and rich in diversity, by men and women demonstrating their individuality and abilities, respecting their own choice

2) A place where the human rights of men and women are respected, where individuals can live with dignity

3) Realized work-life balance of both women and men through reformation of “men-oriented working styles”

4) Recognized internationally for gender equality, which should be positioned as the most important issue in Japan

New Emphases in the Fourth Basic Plan

1) To reform the labor practices that are based on working styles, including the tendency to take long working hours and relocations for granted, which is defined as “men-oriented working styles”

2) To foster measures to increase the recruitment and promotion of women and develop human resources who can become leaders in the future with an eye to expanding women’s participation in all fields of society

3) To establish an environment in which women can live with peace of mind by giving careful consideration and support to women faced with difficult situations

4) To utilize disaster risk management and reconstruction measures from the perspective of gender equality for the whole disaster risk management policies in light of the experiences and lessons learned from Great East Japan Earthquake

5) To response diversifying violence against women and enhance measures to eliminate violence against women

6) To promote proactive compliance with international standards and international contributions based on the perspective of gender equality

7) Enhancing systems for promoting gender equality in local areas on the basis of the situation in each area

*"Plan to rear children with peace of mind” released in June 2017, renewed the target date to "end of FY 2020 at the latest".*
The Intensive Policy to Accelerate the Empowerment of Women 2019

Fundamental Approach

- Considering factors such as longer healthy lifespans and women’s desire to work, it is vital for women to participate actively in society throughout their lives.
- Issues including difficulties faced by women and violence against women have not yet been resolved.
- Efforts tailored to local circumstances play an important role in empowering women.

- Aim for social structures enabling diverse choices in an era of 100-year lifespans.
- Engage in head-on efforts to resolve difficulties and enable safe and secure lives to support the empowerment of women.
- Promote women’s active participation across all sectors as a powerful lever for productivity improvement, economic growth, and regional revitalization.
