My message on ending violence against women.....

Sólo si luchamos juntas podremos detener la violencia, nos necesitamos las unas a las otras, no es un problema individual nos corresponde a todas luchar independientemente de nuestra situación.

Debemos educar a las generaciones venideras basándonos en el respeto, los niños deben crecer sabiendo que la violencia no se justifica de ningún modo.

My message on ending violence against women.....

Hoy en día se promueven muchas campañas  
contra la violencia hacia la mujer, pero es  
ella misma quien tiene que decir basta y  
no permitir que nadie la haga sentir inferior  
Como mujeres somos fuertes y tenemos que  
poner un alto a todo tipo de violencia, ya  
sea física o psicológica, No quedarnos  
calladas y denunciarlo. Porque Para  
acabar con el crimen hay que ponerlo  
a luz.

My message on ending violence against women.....

Violence against women is something I am very against. It is a horrible act and I believe everyone should be against it. I'd like to tell the victims that there are people who truly love you and care for you. We must all come together to end violence against women. When we speak up, we can make change. When we come together as one, we can help the world.

My message on ending violence against women.....

A violência contra as mulheres é um ato pelo qual sou completamente contra. Todos temos o direito à nossa liberdade e não podemos permitir que outra pessoa nos tire esse direito. As mulheres não merecem que continue a haver este tipo de atentados às suas vidas e para que isso termine, teremos de nos juntar e lutar contra este mal que todos os dias estraga a vida de várias mulheres.

My message on ending violence against women.....

When I was little (child) with my mother, a misfortune occurred. My mother told me about the attack, but she was able to escape. They tried to rape her. This greatly affected my memory.

Women's violence is a moral pain. Women are our future. It is they who give birth to children and give the future to our world. Violence is the cessation of their life activity. If violence has occurred then a woman needs to be given psychological support! And most importantly - medical.

All people involved in violence (more) need to be punished correctly. In the future, I want to help women who have been subjected to violence. Violence against a woman is not only a violation of human rights, but also a humiliation of her dignity.

(It's my personal opinion)
