My message on ending violence against women.....

Without women there would be no "you". When we are talking about women it could be your mother, your sister, your niece, your girlfriend. Women are the ones we have to respect, the ones who raise you, the ones who teach you and the ones who make you feel loved.

In what kind of world are we living if violence against women is common. I think we should treasure the most beautiful and sophisticated specie on earth. The women! for me it is very important that I as; Miss International Netherlands am an ambassador of women empowerment. Together we can make sure that violence against women is in the past. All women unite. Arigatou gozaimasu ♡

My message on ending violence against women.....

A life without the threat of violence for everyone is incredibly important. Violence against woman needs to stop and as a society we must ensure that we support one another. We must promote respectful relationships and gender equality. It is important to ensure that woman ~~are able~~ ^{feel} that ~~to~~ they are able to speak openly to others to seek ~~support~~ ^{help} and that they are provided with the support that they may require. No woman should have to live in fear of being hurt.

My message on ending violence against women.....

Woman, love Yourself!!

Muchas veces hemos escuchado a otras mujeres decir que no se sienten bien con ellas mismas. Una mujer que no se ama a sí misma es propensa a ser dañada por otras personas, a depender de la opinión de otros, a ser discriminada.

Mujer, ámate a ti misma, porque cuando te amas a ti misma, sabes tu valor y no permites que nadie pase por encima de ~~tus~~ decisiones, ~~tus~~ principios, ~~tus~~ valores y tu integridad. Eres la más bella de las creaciones. Mirate al espejo y repite: Yo me amo, me acepto y me apruebo.

My message on ending violence against women.....

When we realize our self worth as women
& free ourselves from an abusive relationship
we then can inspire others to set
themselves free by sharing our stories.
Let's work together to educate those who
are unable to see a way out & stay in
relationships where violence occurs. Together
we can help end violence against women.

En mi opinión, la forma más eficaz de luchar contra la violencia hacia la mujer es con la educación, desde nuestros hogares, sirviendo de ejemplo para los más pequeños, enseñándoles a respetar, cuidar y valorar a las mujeres.

Dicen que el amor más puro y transparente es el que transmite
la mujer, esa mujer que lucha con mucha fuerza y valentía
para ser respetada y amada en su familia y fuera de ella.
Digamos ¡Basta! a la violencia contra la mujer.

Tenemos ahora el poder de alzar nuestra voz
y llegar a cada mujer que calla día y día y aguanta
golpes y humillaciones.

¡Somos una Fierza, Somos Mujeres!

No calles, levántate

My message on ending violence against women.....

Według mnie pierwszym krokiem do walki z przemocą wobec kobiet jest podjęcie działań mających na celu zwiększenie ich świadomości w zakresie dostępnych narzędzi pomocy – telefonów zaufania, ośrodków interwencyjnych, fundacji poradczych.
Gdy jesteśmy świadkami lub ofiarą przemocy – mówmy o tym głośno, ponieważ nasze słowa to są pierwszy krok do uzyskania pomocy.

My message on ending violence against women.....

A violência contra as mulheres é injustificadamente horrível. As mulheres são magoadas por fora e/ou por dentro. A violência vem em muitas formas diferentes, tipo; física, verbal ou através da internet. Nenhuma mulher deve ser quebrada por causa de atos violentos de alguém.

Nós mulheres devemos ser fortes e procurar ajuda quando necessário.

Sejam fortes, sempre! Beijinhos ♡

My message on ending violence against women.....

I think women need help, psychologically and socially. This is a terrible problem that can affect a woman in any country. I am a member of a charity in Nigeria and Russia, we help save women from sexual slavery, help with psychological rehabilitation, support and not to lose the desire to live. And moms want to lived properly educate boys, because it is his departure from childhood.. now parents do not spend time studying the proper upbringing of children. It matter!!!
I think the violence will end soon if we all join hands once

My message on ending violence against women.....

Másilie voči ženám je jedným zo závažných problémov dnešnej spoločnosti. Porušuje nielen ženskú dôstojnosť, ale ľudské práva celkom. Žijeme v modernom svete, kde ženy majú rovnaké práva. Podľa môjho názoru, násilie správanie na ženách nukuje silu chlapa, ale práve naopak, jeho slanosť. Veľkým je ten, kto dokáže udržať lásku, pochopenie a rešpekt ~~stón~~ nielen ženám ale všetkým ľuďom.

My message on ending violence against women.....

I believe that the best way to end violence against women is through education. Education not only provides women with opportunity to escape violence in 3rd world countries, but can also ~~the~~ educate others in tolerance and understanding to end the oppression of women.

In my country, the United Kingdom I have used my career to end ~~violence~~ physical and sexual violence against women. I have also worked with charities in my country to provide women with resources to escape violence.

Together we can end violence against women. ♥

My message on ending violence against women.....

Around the world violence against women has become so common that women do not have the confidence to speak up when they become a victim. In the United States laws have been implemented by the government to protect women. I believe that now it is up to the women victims of this violence to use their voice to convict their criminal. I think that the more convicted and punished of this crime, the more it will reduce this crime and hopefully illuminate violence against women forever.
