# **Results of the Pre-Event Questionnaire Survey**

The participants' work experience ranges between less than 5 years and more than 20 years. Their ages are between 20s and 50s, but the largest age group is between 30s and 40s. A vast majority of the participants work for newspapers. More international participants are in managerial posts than Japanese ones. Regardless of nationality, politics and society are the principal topics that the participants have worked on.
