## Evaluation of Achievement towards Numerical Targets of the Fourth Basic Plan for Gender Equality

*This annex was among the materials discussed at the Council for Gender Equality on November, 2020 for formulating the Fifth Basic Plan.

1. Expansion of Women's Participation in Policy Decision-making Processes

## Political Field

Proportion of female candidates for the House of Representatives

Note: The government keeps these targets in mind when requesting political parties for actions. These targets are thus goals for the government to strive for, which don't restrict the independent action of political party, nor require achievement by a political party on its own.

Survey on the Results of the
General Election of the House of
Representatives and the National Review of Supreme Court Judges, Ministry of Internal Affairs and Communications

## Efforts to date

Based on the Act on Promotion of Gender Equality in the Political Field, the GOJ has conducted the following:
-requested that political parties implement voluntary measures such as positive actions,

- "visualized" the participation of women,
- conducted surveys and provided information on measures taken in other countries.

Reasons for not achieving numerical targets, etc.
The following are considered reasons for the delay in women's participation in the political field:

- difficulty in maintaining balance between work (candidacy and parliamentary activities) and family life,
- lack of opportunities for human resource development,
- harassment against candidates and politicians.
(Source: Research and study report on local assembly members for the promotion of gender equality in the political field, Cabinet Office Gender Equality Bureau, March 2018)

| 3 | Proportion of female public prosecutors |  | $\begin{aligned} & 22.4 \% \\ & (2015) \end{aligned}$ | $\begin{gathered} 25.4 \% \\ \text { (March 31, 2020) } \end{gathered}$ | Survey on Women's Participation in Policy/Decisionmaking Processes, Cabinet Office | C | Efforts to date <br> Efforts have been made to improve the work environment for continued employment. <br> Reasons for not achieving numerical targets, etc. <br> The percentage of female public prosecutors who have left the profession has remained below the percentage of female public prosecutors who are on duty. However, since there are a certain number of female public prosecutors who pursued their own carreer choice and changed their career to become, for example lawyers, there are difficulties in reducing the number of female public prosecutors who leave the profession. <br> In order to recruit more female public prosecutors, the GOJ is taking measures such as familiarizing its efforts to improve the environment for continued employment at various briefing sessions. As a result, while the percentage of women who have completed legal training lies around the $20-25 \%$ range, the percentage of female public prosecutors recruitment has remained above $30 \%$ ( $43.1 \%$ in FY2019), and the number of female prosecutors has been steadily increasing. |

## 2. Securing Equal Opportunities and Treatment between Men and Women and Work-Life Balance

## Achievement of Work-Life Balance

## Efforts to date

- The Act on the Arrangement of Related Acts to Promote Work Style Reform, including the amendment of the Labor Standards Act, was enacted (promulgated on July 6, 2018). It includes an upper limit of overtime work with penalties (enforced on April 1, 2019, for large companies and on April 1, 2020, for small and medium-sized companies) - In order to respond to various challenges that small and medium-sized enterprises and small businesses face, the "Work Style Reform Promotion and Assistance Centers" provides one-stop consultation services, and conduct individual visits, on-site consultations, and seminars in cooperation with related organizations.
- Subsidies for the improvement of overtime work (subsidies to support the promotion of work style reforms since 2020) are designed to strengthen incentives for companies to reduce working hours while increasing productivity.
- Initiatives based on the "Outline for Measures to Prevent Death and Injury from Overwork (approved on July 24, 2018)" has been taken

## Reasons for not achieving numerical targets, etc

One of the reasons for not achieving the numerical targets is as follows:
Before the revision of the Labor Standards Act according to the Act on the Arrangement of Related Acts to Promote Work Style Reform, there was an

| 64 | Number of single-parents who are hired as a regular employee through public employment security offices | Year-on-year increase (each fiscal year) | $\begin{gathered} 38,771 \\ \text { (FY2014) } \end{gathered}$ | Total of all genders: 28,814 <br> Male: 1,526 <br> Female: 27,288 <br> (FY2019) | Survey by the Ministry of Health, Labour and Welfare Employment Security Bureau | D | Efforts to date <br> Through the "employment and self-support project for single-mother families," the GOJ provided consistent employment support services ranging from counseling to support seminars and the provision of information. In addition, through the "support project for single-parent families for passing the high school graduation certificate examination," the GOJ provided a portion of the expenses for parents of single-parent families who have not graduated from high school to take courses to pass the high school graduation certificate examination. In addition, for the Public Employment Security Offices, the GOJ provided detailed job counseling and job introductions to parents of single-parent families. <br> Reasons for not achieving numerical targets, etc. <br> Overall, the number of general job placements in FY2019 was 122,808 $(-26.2 \%$ compared to FY2014, which was 166,428$)$, while the number of new job seekers in FY2019 was 392,780 ( $-21.2 \%$ compared to FY2014, which was 498,643 ). As both are on a downward trend, the number of single-parent job placements is also on a downward trend. The number of single-parent job placements in FY2019 was 28,814 ( $-25.7 \%$ compared to FY2014, which was 38,771 ), which is considered to be a factor in not achieving the numerical targets. <br> The extent of the decrease is 0.5 points compared with the number of general job placements, which indicates that the concrete measures taken based on the Fourth Basic Plan have made some contribution. |

8. Establishing Disaster Management and Reconstruction System from the Gender Perspective

Proportion of female members of prefectural disaster prevention councils
(2015)
(2020)

Status of promotion of the creation of a gender-equal society or measures related to women in local governments, Cabinet Office

## Efforts to date

Information on cases where there is a high percentage of female members is provided at the annual conference of directors in charge of gender equality and the training for first-time directors for prefectures and ordinance-designated cities
In accordance with Article 34, Paragraph 2 of the Basic Act on Disaster Management, the GOJ notified each prefecture six times of the necessity to establish a disaster reduction system that responds to gender equality and other diverse viewpoints by incorporating such necessities in the basic disaster management plan. This included the appointment of women as local disaster prevention councils and the expansion of women's participation in the process of determining policies as well as policies related to disaster management.
The GOJ announced that the newly added item 8 to paragraph 5, Article 15 of the Basic Act on Disaster Management, "persons who are members of voluntary disaster management organizations or persons with relevant knowledge and experience," are assumed to be female representatives, and encouraged the expansion of women's participation in the policy and policy making process on disaster management.
The expansion of women's participation in local disaster prevention councils was included in the "Guidelines for Disaster Prevention and Reconstruction Efforts from the gender perspective" prepared in 2013 and disseminated to local governments. In May 2020, the guidelines were revised and "Women's Perspectives for Strengthening Disaster Response Capabilities: Guidelines for Disaster Prevention and Recovery from the Perspective of Gender Equality" was prepared. The GOJ continues to disseminate and widen the use of the revised guidelines.

|  |  |  |  |  |  |  | (Continued) <br> Reasons for not achieving numerical targets, etc. <br> The proportion of female members in local disaster prevention councils has been increasing, although it has not reached the numerical targets, and both prefectures and municipalities have been promoting it. However, the status of promotion by prefecture and municipality shows that while some local governments have more than $40 \%$ female members in their disaster prevention councils, many municipalities still have none, indicating the difference in the status of efforts. Another factor is the existence of a stereotypical bias of gender roles, in which men play the main role in the field of disaster prevention. |

|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |

## Efforts to date

Under the accelerated plan to reduce the number of -wait-listed children for childcare services to zero, the number of childcare facilities was expanded to accommodate approximately 535,000 more children* over the five years from FY2013 to the end of FY2017 (achieving the government numerical target of 500,000 more children).
*The number of childcare facilities expanded by municipalities can accommodate approximately 476,000 children. The number of childcare facilities expanded by company-led childcare services can accommodate approximately 60,000 children

## Reasons for not achieving numerical targets, etc.

Under the accelerated plan to reduce the number of wait-listed childeren for childcare services to zero, the number of childcare facilites was expanded to accommodate approximately 535,000 more children over the five years from FY2012 to the end of FY2017. However, the employment rate for women between 25 and 44 years of age, the utilization rate of childcare for children 1 year and 2 years of age, and the number of applicants for childcare has increased at a higher rate than when the plan was formulated.

- Employment rate for women: 2.1 times higher compared with before the accelerated plan to reduce the number of wait-listed children for childcare services to zero.
40.6 points/year (2009-2012) $\rightarrow+1.25$ points/year (2012-2016)
- The number of applicants: 1.9 times increased compared with before the

| No. | Numerical Targets of the Fourth Basic Plan for Gender Equality | Target Figures (Deadline) | Figures at the time of planning | Updated Figures (current) | Sources |  | Achievement level evaluation |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |  | Evaluation <br> A: Achieved numerical targets <br> B: Achieved early targets C: Progress since the formulation of plan D: No progress since the formulation of plan | Factors in the case of not achieving numerical targets (B to D) |

## 11. International Collaboration and Contribution on Gender Equality

| 94 | Recognition of the term "Convention on the Elimination of All Forms of Discrimination against Women" | $\begin{gathered} 50 \% \text { or greater } \\ (2020) \end{gathered}$ | $\begin{aligned} & 34.8 \% \\ & (2012) \end{aligned}$ | $\begin{aligned} & 34.7 \% \\ & (2019) \end{aligned}$ | Poll on gender equality in society, Cabinet Office | D | Efforts to date <br> The GOJ has been working to make the term more visible and familiar by posting the reports of the government, the concluding observations by the Committee on the Elimination of Discrimination against Women, and the GOJ comments on the concluding observations on the website of the Gender Equality Bureau of the Cabinet Office. The GOJ has been trying to make people aware of issues by raising them as an agenda item at the meetings of the Council for Gender Equality and meetings of the expert committee on priority policies. <br> Reasons for not achieving numerical targets, etc. <br> Although the overall "recognition of the term of the Convention on the Elimination of All Forms of Discrimination against Women" was 34.7\% in the public opinion survey conducted in 2019, recognition among the younger generation ( 29 years old and younger) has been approximately 40 $-50 \%$ for the past 10 years and the recognition of those in their 30 s has increased from $32.3 \% 10$ years ago to $39.8 \%$ in 2019. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 95 | Number of Japanese staff in U.N.related organizations (professionals and above) | $\begin{gathered} 1,000 \text { or more } \\ (2025) \end{gathered}$ | $\begin{gathered} 766 \\ (2015) \end{gathered}$ | $\begin{gathered} 912 \\ (2020) \end{gathered}$ | Survey by the Ministry of Foreign Affairs | C | Efforts to date <br> For Japanese nationals who wish to work for international organizations such as the United Nations, the GOJ provides various kinds of support such as the JPO dispatch system (a system that dispatches young human resources to international organizations), the provision of information on vacant positions, and employment seminars. |

| No. | Numerical Targets of the Fourth Basic Plan for Gender Equality | Target Figures (Deadline) | Figures at the time of planning | Updated Figures (current) | Sources | Achievement level evaluation |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |  | Evaluation <br> A: Achieved numerical targets <br> B: Achieved early targets <br> C: Progress since the formulation of plan <br> D: No progress since the formulation of plan | Factors in the case of not achieving numerical targets (B to D) |
| 96 | Proportion of female diplomats in overseas establishments (ministers, counselors and above) | $\begin{gathered} 10 \% \\ (2020) \end{gathered}$ | $\begin{aligned} & 5.4 \% \\ & (2015) \end{aligned}$ | $7.4 \%$ <br> Total of all genders: <br> 543 <br> Male: 503 <br> Female: 40 <br> (July 2020) | Survey by the Ministry of Foreign Affairs | C | Efforts to date <br> The GOJ has worked on promoting a work-life balance at overseas establishments, including providing subsidies for the use of babysitters, housing allowances for unaccompanied employees with a child (equivalent to those posted with spouse), and introducing a flextime system. <br> Reasons for not achieving numerical targets, etc. <br> The small number of female diplomats among staff members who have reached the rank of minister, counselor, or above at overseas establishments is considered to be a factor for not achieving the numerical targets. On the other hand, the proportion of women in key positions at overseas establishment has been increasing year by year, and the GOJ will continue to appoint excellent human resources based on the idea of placing the right person in the right position. |
| 12.Implementation of the Plan |  |  |  |  |  |  |  |
| 97 | Proportion of municipalities with established plans for gender equality | Cities and wards: $100 \%$ Towns and villages: 70\% (2020) | Cities and wards: 97.0\% <br> Towns and villages: 52.6\% (2015) | Cities and wards: $98.3 \%$ Towns and villages: $69.5 \%$ $(2020)$ | Status of promotion of the creation of a gender-equal society or measures related to women in local governments, Cabinet Office | $\begin{aligned} & \mathrm{C} \\ & \mathrm{C} \end{aligned}$ | Efforts to date <br> Efforts have been made to promote the formulation of municipal plans for gender equality by providing information and dispatching advisors to local governments for the formulation of such plans. <br> Reasons for not achieving numerical targets, etc. <br> The number of municipalities that have formulated the plan has been increasing. As 80 municipalities are considering formulating a plan, it is necessary to continue promoting the efforts. |

| No. | Numerical Targets of the Fourth Basic Plan for Gender Equality | Target Figures (Deadline) | Figures at the time of planning | Updated Figures (current) | Sources |  | Achievement level evaluation |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |  | Evaluation <br> A: Achieved numerical targets <br> B: Achieved early targets C: Progress since the formulation of plan D: No progress since the formulation of plan | Factors in the case of not achieving numerical targets (B to D) |
| 98 | Proportion of local governments with established promotion plans in place based on the Act on Promotion of Women's Participation and Advancement in the Workplace (Republished) | Prefecture: 100\% <br> Cities and wards: 100\% <br> Towns and villages: 70\% (2020) | - | Prefecture: 100\% <br> Cities and wards: 82.5\% <br> Towns and villages: $37.7 \%$ <br> (FY2019) | Cabinet Office <br> Gender Equality Bureau Survey | $\begin{aligned} & \mathrm{A} \\ & \mathrm{C} \\ & \mathrm{C} \end{aligned}$ | Efforts to date <br> For local governments, the GOJ has published documents that summarizes expected questions and answers regarding the formulation of promotion plans on the website and disseminated to local governments. <br> Reasons for not achieving numerical targets, etc. <br> One of the reasons why municipalities have not made progress in formulating a plan is that the promotion plan based on the Act on Promotion of Women's Participation and Advancement in the Workplace is allowed to be formulated together with the gender equality plan. Many local governments ( $80 \%$ in government-designated cities) have formulated the two plans together. In the future, it is expected that some local governments will consider formulating a promotion plan when they revise the gender plan. |

The Fifth Basic Plan for Gender Equality Numerical Targets Extract ( 58 targets on the improvement of the situation for women's appointment and recruitment)

| Item | Current status | Numerical Targets (Deadline) |
| :---: | :---: | :---: |
| Field 1. Expansion of Women's Participation in Policy Decision-making Processes |  |  |
| Proportion of female national public offcials hired through recruitment examinations | $\begin{gathered} 36.8 \% \\ \text { (April 1, 2020) } \end{gathered}$ | $35 \%$ or higher (Every fiscal year) |
| Proportion of female national public officials hired through the examination for comprehensive service | $\begin{gathered} 35.4 \% \\ \text { (April 1, 2020) } \end{gathered}$ | $35 \%$ or higher (Every fiscal year) |
| Proportion of female national public officials hired through the recruitment examination (Technical category) | - | $\begin{gathered} 30 \% \\ \text { (FY2025) } \end{gathered}$ |
| Propotion of women at each rank in national government positions |  |  |
| Section chief at HQ or equivalent | $\begin{gathered} 26.5 \% \\ \text { (July 2020) } \end{gathered}$ | $\begin{gathered} 30 \% \\ \text { (End of FY2025) } \end{gathered}$ |
| Newly promoted section chief level officials (HQ) | $\begin{gathered} 22.8 \% \\ \text { (July 2019) } \end{gathered}$ | $\begin{gathered} 35 \% \\ \text { (End of FY2025) } \end{gathered}$ |
| Director at regional institution, assistant director at HQ or equivalent | $\begin{gathered} 12.3 \% \\ \text { (July 2020) } \end{gathered}$ | $\begin{gathered} 17 \% \\ \text { (End of FY2025) } \end{gathered}$ |
| Director at HQ or equivalent | $\begin{gathered} 5.9 \% \\ \text { (July 2020) } \end{gathered}$ | $\begin{gathered} 10 \% \\ \text { (End of FY2025) } \end{gathered}$ |
| Designated service or equivalent | $\begin{gathered} 4.4 \% \\ \text { (July 2020) } \end{gathered}$ | $\begin{gathered} 8 \% \\ \text { (End of FY2025) } \end{gathered}$ |
| Proportion of female public prosecutors | $\begin{gathered} 25.4 \% \\ \text { (March 31, 2020) } \end{gathered}$ | $\begin{gathered} 30 \% \\ \text { (End of FY2025) } \end{gathered}$ |

Proportion of female members in national advisory councils and committees

| Members of advisory councils and <br> committees | $40.7 \%$ <br> $(2020)$ | Between 40\% and 60\% <br> $(2025)$ |
| :--- | :---: | :---: |
| Expert members of advisory councils <br> and committees | $30.3 \%$ <br> $(2020)$ | Between $40 \%$ and $60 \%$ <br> $(2025)$ |
| Proportion of female prefectural public <br> officials hired through recruitment <br> examinations for local public officials <br> (overall) | $36.6 \%$ <br> (FY2019) | $40 \%$ <br> (FY2025) |
| Proportion of female prefectural public <br> officials hired through recruitment <br> examinations for local public officials <br> (for university graduate or equivalent) | $33.6 \%$ <br> (FY2019) | $40 \%$ <br> (FY2025) |
| Proportion of female prefectural public officials at each level | $30 \%$ <br> (End of FY2025) |  |
| Position equivalent to section chief of <br> the prefectural government main <br> office | $22.6 \%$ <br> $(2020)$ | (F) |

| Item | Current status | Numerical Targets <br> (Deadline) |
| :--- | :---: | :---: |
| Position equivalent to assistant <br> director of the prefectural government <br> main office | $20.4 \%$ <br> $(2020)$ | $25 \%$ <br> (End of FY2025) |
| Position equivalent to director of the <br> prefectural government main office | $12.2 \%$ <br> $(2020)$ | $16 \%$ <br> (End of FY2025) |
| Position equivalent to <br> department/bureau chief/deputy chief <br> of the prefectural government main <br> office | $7.0 \%$ <br> $(2020)$ | $10 \%$ <br> (End of FY2025) |

Proportion of female municipal public officials at each level

| Position equivalent to section chief of the municipal government main office | City, town and village: $35.0 \%$ [Ordinance-Designated City: $26.5 \% \text { ] }$ (2020) | $\begin{gathered} 40 \% \\ \text { (End of FY2025) } \end{gathered}$ |
| :---: | :---: | :---: |
| Position equivalent to assistant director of the municipal government main office | City, town and village: 29.2\% [Ordinance-Designated City: 22.6\%] <br> (2020) | $\begin{gathered} 33 \% \\ \text { (End of FY2025) } \end{gathered}$ |
| Position equivalent to director of the municipal government main office | City, town and village: $17.8 \%$ [Ordinance-Designated City: $16.9 \% \text { ] }$ (2020) | $\begin{gathered} 22 \% \\ \text { (End of FY2025) } \end{gathered}$ |
| Position equivalent to department/bureau chief/deputy chief of the municipal government main office | City, town and village: $10.1 \%$ [Ordinance-Designated City: $\begin{aligned} & 10.8 \%] \\ & (2020) \end{aligned}$ | $\begin{gathered} 14 \% \\ \text { (End of FY2025) } \end{gathered}$ |
| Proportion of female local police officers | $\begin{gathered} 10.2 \% \\ \text { (April 2020) } \end{gathered}$ | Approximately 12\% (Beginning of FY2026) |
| Proportion of female firefighters (Note 1) | $\begin{gathered} 2.9 \% \\ \text { (FY2019) } \end{gathered}$ | $\begin{gathered} 5 \% \\ \text { (Beginning of FY2026) } \end{gathered}$ |

Proportion of female members of local government councils and committes

| Members of prefectural government <br> advisory councils and committees | $33.3 \%$ <br> $(2020)$ | Between $40 \%$ and $60 \%$ <br> $(2025)$ |
| :--- | :---: | :---: |
| Members of municipal government <br> advisory councils and committees | $27.1 \%$ <br> $(2020)$ | Between $40 \%$ and $60 \%$ <br> $(2025)$ |

Proportion of female executive officers and employees at each level in incorporated administrative agencies, etc.

| Department chief, director or <br> equivalent | $15.4 \%$ <br> $(2020)$ | $18 \%$ <br> (End of FY2025) |
| :--- | :--- | :--- |
| Executives | $14.4 \%$ <br> $(2020)$ | $20 \%$ <br> (End of FY2025) |

| Item | Current status | Numerical Targets (Deadline) |
| :---: | :---: | :---: |
| Proportion of female employees at each level in private companies |  |  |
| Section Chief level | $\begin{aligned} & 18.9 \% \\ & (2019) \end{aligned}$ | $\begin{gathered} 30 \% \\ (2025) \end{gathered}$ |
| Director level | $\begin{aligned} & 11.4 \% \\ & (2019) \end{aligned}$ | $\begin{gathered} 18 \% \\ (2025) \end{gathered}$ |
| Department manager level | $\begin{gathered} 6.9 \% \\ (2019) \end{gathered}$ | $\begin{gathered} 12 \% \\ (2025) \end{gathered}$ |
| Proportion of women executives of listed companies (Note 2) | - | $\begin{gathered} 12 \% \\ (2022) \text { (Note 3) } \end{gathered}$ |
| Proportion of women entrepreneurs (Note 4) | $\begin{aligned} & 27.7 \% \\ & (2017) \end{aligned}$ | $30 \%$ or higher <br> (2025) |
| (Note: The government keeps these targets in mind when requesting political parties for actions. These targets are thus goals for the government to strive for, which don't restrict the independent action of political party, nor require achievement by a political party on its own.) |  |  |
| Proportion of female candidates for the House of Representatives | $\begin{aligned} & 17.8 \% \\ & (2017) \end{aligned}$ | $\begin{gathered} 35 \% \\ (2025) \end{gathered}$ |
| Proportion of female candidates for the House of Councilors | $\begin{aligned} & 28.1 \% \\ & \text { (2019) } \end{aligned}$ | $\begin{gathered} 35 \% \\ (2025) \end{gathered}$ |
| (Note: The following is the target represents the figure expected to be achieved as a whole through government initiatives, including requests to political parties, etc., promotion of visualization, fact-finding surveys, sharing of good practicies, and improvement of the environment, as well as collaboration with political parties, the Diet, local government bodies, the six local organizations, and other relevant actors. It neither adds constrains to autonomous action by each organizaiton nor is a target each organization aims to achieve. The figure for the current state represents the total for prefectural, ordinance-designated city, and municipal assembly elections in the 2019 nationwide local elections.) |  |  |
| Proportion of female candidates for the nationwide local elections | $\begin{aligned} & 16.0 \% \\ & (2019) \end{aligned}$ | $\begin{gathered} 35 \% \\ (2025) \end{gathered}$ |
| Field 3. Promotion of Gender Equality in Regional Areas |  |  |

Proportion of female members in agricultural committees

| Number of agricultural committees <br> without any female members | $273 / 1,703$ <br> (FY2019) | 0 <br> (FY2025) |
| :--- | :---: | :---: |
| Proportion of female members in <br> agricultural committees | $12.1 \%$ <br> (FY2019) | 20\% (at an early stage), then aim <br> for 30\% <br> (FY2025) |

Proportion of female officers in agricultural co-operatives

| Number of agricultural co-operatives <br> without any female executive officers | $107 / 639$ <br> (FY2018) | 0 <br> (FY2025) |
| :--- | :---: | :---: |
| Proportion of female executive <br> officers | $8.0 \%$ <br> (FY2018) | $10 \%$ (at an early stage), then aim <br> for 15\% <br> (FY2025) |

Proportion of female directors in the Land Improvement Districts (including League of Improvement Districts)

| Item | Current status | Numerical Targets <br> (Deadline) |
| :--- | :---: | :---: |
| Number of organizations without any <br> female directors | $3,737 / 3,900$ <br> (FY2016) | 0 <br> (FY2025) |
| Proportion of female directors | $0.6 \%$ <br> (FY2016) | $10 \%$ <br> (FY2025) |
| Proportion of certified female farmers | $4.8 \%$ <br> (March 2019) | $5.5 \%$ <br> (FY2025) |
| Proportion of female heads of <br> community associations | $6.1 \%$ <br> (FY2020) | $10 \%$ <br> (FY2025) |

Field 4. Gender Equality in Science and Technology and Academic Fields

Proportion of female academic staff in science and engineering at universities (lecturers and above)

|  |
| :--- |
| Proportion of women hired as |
| researchers at universities |
|  |

Science: $8.0 \%$ Engineering: 4.9\%
(2016)

Science: $12.0 \%$
Engineering: 9.0\%
(2025)

Science: 20\%
Engineering: 15\%
Agriculture: 30\%
Medicine, Dentistry and
Pharmacology: 30\%
Humanities: 45\%
Social Sciences: 30\% (2025)

## Field 7. Support for Lifelong Health

| Proportion of female practicing <br> physicians between 25 and 44 years of <br> age | $31.8 \%$ <br> $(2018)$ | $33.6 \%$ <br> (As early as possible in 2020s) |
| :--- | :---: | :---: |
| Proportion of female directors in sport <br> organizations | $15.7 \%$ <br> (As of March 2019) | (As early as possible in 2020s) |

Field 8. Disaster Prevention and Reconstruction, and Environmental Issues from Gender Perspectives

| Proportion of female members of |  |  |
| :--- | :---: | :---: |
| prefectural disaster prevention councils | $16.1 \%$ <br> $(2020)$ | $30 \%$ <br> $(2025)$ |

Proportion of female members of municipal disaster prevention councils

| Number of organizations with no <br> female members | $348 / 1,741$ <br> $(2020)$ | 0 <br> $(2025)$ |
| :--- | :---: | :---: |
| Proportion of female members | $8.8 \%$ <br> $(2020)$ | Aiming for 15\% (initially), up to <br> $30 \%$ (2025) |
| Proportion of female fire corps <br> volunteers (Note 5) | $3.2 \%$ <br> (FY2019) | Target of 10\%, aiming for 5\% in <br> the meantime <br> (FY2026) |

Field 10. Raising Awareness and Facilitating Understanding through Education and Media for both Women and Men

Proportion of female principals and vice principals in elementary and secondary educational organizations

| Vice principals | $20.5 \%$ <br> $(2019)$ | $25 \%$ <br> $(2025)$ |
| :--- | :---: | :---: |
| Principals | $15.4 \%$ <br> $(2019)$ | $20 \%$ <br> $(2025)$ |

| Item | Current status | Numerical Targets <br> (Deadline) |
| :---: | :---: | :---: |

Proportion of female university faculty members

| Associate professors | $25.1 \%$ <br> $(2019)$ | Aiming for 27.5\% (initially) and <br> $30 \%$ <br> $(2025)$ |
| :--- | :---: | :---: |
| Professors, etc. | $17.2 \%$ <br> (university president, vice president, <br> professor) | (2019) |
| Number of prefecture or municipal <br> boards of education with no female <br> members | $(2019)$ | Aiming for 20\% (initially) and <br> $(23 \%$ |

Field 11. International Collaboration and Contribution on Gender Equality

| Proportion of women in each position level at overseas establishments |  |  |
| :--- | :---: | :---: |
| Minister, Counselor and above $7.4 \%$ $10 \%$ <br>  (July 2020) $(2025)$ <br> Ambassador Extraordinary and $5.3 \%$ $8 \%$ <br> Plenipotentiary, Consul-General (July 2020) $(2025)$ |  |  |

(Note 1) A firefighter is an employee of fire defense headquarters or a fire station who has a rank and uniform and is engaged in fire fighting affairs.
(Note 2) Executives include directors, auditors, executive officers, executive managing officers and officers equivalent to them.
(Note 3) Target after the reorganization of trading sections is to be set at the time of interim follow-up for the Fifth Basic Plan.
(Note 4) An entrepreneur is a person who has changed their job or taken a new job in the past year and is currently an officer of a company or a selfemployed person who has started their own business.
(Note 5) A fire corps volunteer is a member of a municipal fire department who engages in firefighting and disaster management activities based on the spirit of local patriotism and "protecting our own community by ourselves," while having another main occupation.

1. Status of Police Response to Cases of Spousal Violence (2014-2020)

|  |  | 2014 | 2015 | 2016 | 2017 | 2018 | 2019 | 2020 |

Proportion of women administrative/managerial workers

(Source) Figures for Japan are from Ministry of Internal Affairs and Communications, "Labour Force Survey." Figures for other countries are from ILO, "LLOSTAT" (as of November 2020). Figures for all countries are for 2019.

OWomen account for $51.3 \%$ of Japan's population and $51.7 \%$ of the eligible voters. Participation of both women and men in the decision-making process leads to a sustainable society and a society comfortable for all people.

## New targets :

- Create a society within the 2030s in which everyone can demonstrate their abilities regardless of sex and gender and where both women and men alike are in leadership positions; and - Implement measures to increase the proportion of women in leadership positions to about $30 \%$ of the total as early as possible during the 2020s as a milestone.
[Challenges for progress]
Political field
- Difficulty of balancing candidacy/political activities and family life
- Lack of human resource development opportunities
- Harassment against candidates and politicians

Economic field

- Still in the process of building the pipeline of future managers and executives

Society as a whole

- Stereotype of gender roles

## Field 1 Expansion of Women's Participation in Policy Decision-making Processes

## Key Initiatives and Targets in the Political Field

- Request political parties to increase the proportion of women candidates in national elections, in accordance with the spirit of the Act on Promotion of Gender Equality in the Political Field.
- Disclose progress made by each political party.

| Item | Current state | Target (Deadline) |
| :--- | :---: | :---: |
| Proportion of women candidates for the House of <br> Representatives | $17.8 \%(2017)$ | $35 \%(2025)$ |
| Proportion of women candidates for the House of Councillors | $28.1 \%(2019)$ | $35 \%(2025)$ |

(* The government keeps these targets in mind when requesting political parties for actions. These targets are thus goals for the government to strive for, which don't restrict the independent action of political party, nor require achievement by a political party on its own.)

Source: Ministry of Internal Affairs and Communications, "Survey of Results of House of Councillors Regular Elections" *Source of the actual figures.

- Request the national associations of local assembly chairpersons to amend the Standard Rules to facilitate the periods before and after childbirth as well as the inclusion of childcare, nursing care into reasons for absence.
- Consider providing platforms for the development of women who wish to participate in politics as well as those for their networking.

| Item | Current state | Target (Deadline) |
| :--- | :---: | :---: |
| Proportion of women candidates | $16.0 \%$ | $35 \%$ |
| in nationwide local elections | $(2019)$ | $(2025)$ |

[^0]
## Field 1 Expansion of Women's Participation in Policy Decision-making Processes

## Key Initiatives and Targets in the Economic Field

- Notify new obligations based on the amended Act on the Promotion of Female Participation and Career Advancement.
- Take into account gender perspectives in considering the improvement of corporate governance, including how information should be disclosed in annual securities reports.
- Compile information of women executives found in annual securities reports and look into disclosure efforts and factors that hinder the appointment of women executives, so that companies active in women's empowerment can be recognized and businesses can overcome challenges in appointing and developing female executives.

| Item | Current state | Target (Deadline) |
| :--- | :---: | :---: |
| Proportion of women in private corporation managerial positions |  |  |
|  | Section Chief level | $18.9 \%(2019)$ |
|  | Director level | $11.4 \%(2019)$ |
|  | Department manager level | $6.9 \%(2019)$ |
| Proportion of women executives of listed companies*1 |  | - |

*1 Executives include directors, auditors, executive officers, executive managing officers and officers equivalent to them *2 Target after the reorganization of trading sections is to be set at the time of interim follow-up for the Fifth Basic Plan.

## Field 1 Expansion of Women's Participation in Policy Decision-making Processes

## Key Initiatives and Targets in the Judicial Field

## [Prosecutors]

- In addition to working on the advancement of female prosecutors, take measures to ensure that law schools produce women who work in the legal profession. Specific measures include education by women in the legal profession who can be role models.

| Item | Current state | Target (Deadline) |
| :--- | :---: | :---: |
| Proportion of female public <br> prosecutors | $25.4 \%$ <br> (March 31, 2020) | $30 \%$ <br> (End of FY2025) |

## [Judges]

- Request the courts and other relevant entities to increase the proportion of female judges, including female justices of the Supreme Court.
- Request law schools to take measures to produce women who work in the legal profession. Specific measures include education by women in the legal profession who can be role models.

## [Attorneys]

- Request law schools to take measures to produce women who work in the legal profession. Specific measures include education by women adopting diverse work styles in the legal profession who can be role models.

## Key Initiatives and Targets in the Public Administration Field

## [National and local public employees]

- Make personnel management flexible, such as offering opportunities for training and diverse work experience, creating systems for consultation, and offering important work experience necessary for career advancement before or after the period of childcare.
- Encourage male employees to take leave associated with childcare.

| Item | Current state | Target (Deadline) |
| :---: | :---: | :---: |
| Proportion of women at each rank in national government positions |  |  |
| Section chief at HQ or equivalent | 26.5\% (July 2020) | 30\% (End of FY2025) |
| Newly promoted unit chief level employees (HQ) | 22.8\% (July 2019) | 35\% (End of FY2025) |
| Director at Regional institution, assistant director at HQ or equivalent | 12.3\% (July 2020) | 17\% (End of FY2025) |
| Director at HQ or equivalent | 5.9\% (July 2020) | 10\% (End of FY2025) |
| Designated service or equivalent | 4.4\% (July 2020) | 8\% (End of FY2025) |
| Percentage of male workers who take childcare leave(National civil service) | 12.4\% (FY2018) | 30\% (2025) |
| Percentage of male workers who take childcare leave(Local civil service) | 8.0\% (FY2019) | 30\% (2025) |

Field 2 Securing Equal opportunities and Treatment between Women and Men and Work-Life Balance

## Basic Standpoint

Expansion of ESG investment

(Source) Cabinet Office, "Questionnaire for Research Project on ESG Investors' Usage of Information on Women's Advancement-" (2019)

Employment rate for women by Age Group

(Source) Ministry of Internal Affairs and Communications, "Labour Force Survey (Basic Tabulation: Historical Data)"

OThose who are willing to work being able to demonstrate their ability to the fullest, regardless of gender, is a basis of personal well-being. It is also extremely important in invigorating the Japanese society and economy, as well as in attracting domestic and international talent and investors to Japanese companies.
Olt is important that everyone who is willing to work is able to continue working, gain opportunities to develop their ability and career, and demonstrate their ability to the fullest, without being forced to choose between work and life.
OEnsuring equal opportunity and treatment in employment, such as eliminating discriminatory practices based on gender and sexual harassment at workplace, is an essential prerequisite for a society where everyone who is willing to work is empowered. Sexual harassment in job hunting is an act that exploits students looking for a job. It is vital to take preventive measures.
OIn addition to improving the treatment of workers in non-regular employment, it is necessary to step up measures to convert them to regular employees.
OThe spread of COVID-19 has had a greater impact on women's employment and income. It is important to take appropriate measures as necessary. It is also important to further promote remote working across Japan.

# Field 2 Securing Equal opportunities and Treatment between Women and Men and Work-Life Balance 

## Key Initiatives and Targets

- To encourage men to take childcare leave, consider introducing a new framework to encourage them to take a leave immediately after childbirth and disseminate information on the leave system to individual workers, among other measures, with a view to submitting relevant bills to the current ordinary session of the Diet.
- To prevent sexual harassment in job hunting, investigate the actual state of the issue. In addition, collaborate with relevant ministries for appropriate response, such as offering consultations at Comprehensive Labour Advisory Counters in Prefectural Labour Bureaus. Furthermore, share cases dealt with by universities at meetings of those who engage in student support and on other occasions.
- Ensure smooth enforcement of the Part-Time and Fixed-Term Workers Act and the Worker Dispatching Act to eliminate the unreasonable gap between the treatment of regular and non-regular employees within the same company/organization.
- To facilitate conversion of non-regular employees to regular employees, formulate a plan for conversion to regular employees and treatment improvement, and offer subsidies and other forms of assistance to businesses.
- For increased opportunities to brush up one's knowledge and skills, promote recurrent education to equip adults, including those who wish to re-enter the labor market, with the practical knowledge and skills necessary for employment, skill improvement, or career change.

| Item | Current state | Target (Deadline) |
| :--- | :---: | :---: |
| Percentage of male workers at <br> private corporation who take <br> child care leave | $7.48 \%$ (FY2019) | $30 \%(2025)$ |
| Employment rate for women <br> aged between 25and 44 years | $77.7 \%(2019)$ | $82 \%(2025)$ |
| Percentages of wives who <br> continued working before and <br> after giving birth to the 1st child | $53.1 \%(2015)$ | $70 \%(2025)$ |

## Field 3 Promotion of Gender Equality in the Area of Regional

## Basic Standpoint

(Source) Calculated by Cabinet Office based on Ministry of Internal Affairs and Communications, "Report on Internal Migration in Japan" and "Survey on Population, Demographics, and Number of Households Based on the Basic Resident Registration."
*Net loss of regions' population was divided by regions' population to calculate the proportion (Net loss of regions' population/Regions' population)
Regions: 36 prefectures excluding the three metropolitan (Tokyo, Nagoya, and Osaka) areas Tokyo area: Saitama, Chiba, Tokyo, and Kanagawa
Nagoya area: Gifu, Aichi, and Mie
Osaka area: Kyoto, Osaka, Hyogo, and Nara

(Source) Prepared based on National and Regional Policy Bureau, Ministry of Land, Infrastructure, Transport and Tourism, "Basic
Survey on the Concentration of Businesses in Tokyo (International Questionnaire for Citizens)" (2020)

ORural areas are facing serious population outflow, as well as declining birthrate and aging. In addition, net migration of young women to metropolitan areas has been increasing in recent years. A higher proportion of women cited "I wanted to leave the local area and home" as a reason for not choosing to work in the local area. A factor behind this could be a deep-rooted stereotyped perception of gender roles in the area, which deprives women of opportunities and places they belong. Sustainable development of local communities is not possible unless regions become attractive for women. Promoting gender equality and women's empowerment in regions will lead to the securing and retaining of talent and is essential for the sustainable development of the regional economy.
OMeanwhile, some people are returning to rural areas, and more women in urban areas engage with such areas. In addition to the rising interest in moving from the Tokyo area to rural areas due to COVID-19, remote working and online platforms are tapping into the potential of women in rural areas in terms of their work styles.
Oln light of the shrinking agricultural workforce, it is essential to support women's empowerment to ensure the sustainability of agriculture, forestry, and fisheries. In addition, community activities (PTAs, residents'/neighborhood associations, etc.) need diverse actors to resolve increasingly diversifying issues. It is thus important to be free from stereotyped gender roles.

## Field 3 Promotion of Gender Equality in the Area of Regional

## Key Initiatives and Targets

- Through subsidies for women's empowerment in regions and by other means, offer support to measures taken by local government bodies in collaboration with various actors and in accordance with regional circumstances. Specific initiatives may include development of highly skilled female IT professionals, establishment of diverse and flexible work styles for the "new normal", and support for women facing different types of challenges/difficulties.
- Facilitate participation of women in the policy decision-making process in agriculture, forestry, and fisheries by increasing the proportion of female members of the Agriculture Committee and female directors of agricultural co-operatives, as well as by working to depart from zero female appointment. In addition, create an environment for women to be able to demonstrate their ability in agriculture, forestry, and fisheries, by encouraging certified farmers to jointly apply for business improvement plans and utilizing subsidized projects.
- To increase female leaders who head locally rooted organizations, including residents' associations, take measures to foster momentum and develop human resources. In addition, present ideal approaches to the activities, which allow diverse male and female residents to participate, and expand good practices horizontally.

| Jobs-to-applicants ratio (December 2020) |  |
| :--- | :---: |
| Total | 1.03 |
| Information processing/ <br> Communications engineers | 1.23 |
| Clerical staff | 0.27 |

(Source) Ministry of Health, Labour and Welfare, "General Job Placement Status"

| Item | Current state | Target <br> (Deadline) |
| :--- | :---: | :---: |
| Net loss of population against <br> regions' population of women in <br> their 10s and 20s | $1.33 \%$ <br> $(2019)$ | $0.80 \%$ <br> $(2025)$ |
| Proportion of female heads of <br> community associations | $6.1 \%$ <br> (FY2020) | $10 \%$ <br> (FY2025) |

Proportion of female members in Agricultural Committees

| Number of organizations <br> without any female <br> members | 273/1,703 <br> (FY2019) | 0 <br> (FY2025) |
| :--- | :---: | :---: |
| Proportion of female <br> members in agricultural <br> committees | $12.1 \%$ <br> (FY2019) | 20\% (at an early stage), <br> then aim for 30\% <br> (FY2025) |

## Field 4 Gender Equality in Science and Technology and Academic Fields

## Basic Standpoint

Olt is important that both women and men participate in and benefit from cutting-edge technology development, as well as the provision of products and services that take advantage of such technology.
OGender differences, such as differences in physical build, structure, and function and changes associated with aging, need to be taken into account in research and technology development.
As it is necessary to embrace diverse perspectives and ideas, an environment where female researchers and engineers can demonstrate their abilities to the maximum extent, without being subject to discriminatory treatment, needs to be created.
It is necessary to support universities, research institutes, academic organizations, and businesses in taking positive action to facilitate the appointment of women to the management board, frontline leaders, and senior positions.
OSupport to balance research and unpaid care work is essential for both women and men to allow researchers and engineers to continue with their activities.
Olt is also important to foster female human resources in science and technology who will lead the next generation.

## Field 4 Gender Equality in Science and Technology and Academic Fields

## Key Initiatives and Targets

- Keep track of and share the proportion of female presidents, chancellors, and research institute directors at science and technology organizations and academic institutions.
- Add the gender equality perspective and taking relevant measures, as well as recognizing initiatives to give consideration to unpaid care work to conditions for receiving government-related competitive research funds.
- Give consideration to those who have been temporarily away from research due to caring for children and the elderly in the eligibility for measures to increase the number of positions available for young researchers, as well as for research funds for young researchers.
- Take thorough measures to prevent various forms of harassment, such as providing necessary information to universities and research institutes to ensure that they can drive forward initiatives to prevent academic harassment and other forms of harassment. In addition, ensure thorough implementation of preventive measures by all stakeholders, including students.
- In cooperation with universities, research institutes, academic organizations, and businesses, encourage female students to choose a career in science and engineering, by facilitating female pupils'/students', parents', and teachers' understanding of the advantages of choosing such a career and working on the elimination of unconscious bias.

| Item | Current state | Target (Deadline) |
| :--- | :---: | :---: |
| Proportion of female academic staff in science and <br> engineering at universities (lecturers and above) | Science: $8.0 \%$, Engineering: $4.9 \%$ <br> (2016) | Science: $12.0 \%$, Engineering: $9.0 \%$ <br> (2025) |
| Proportion of female undergraduate studentsin <br> university science and engineering departments | Science: $27.9 \%$, Engineering: $15.4 \%$ <br> (2019) | Higher than the previous fiscal year <br> (Every fiscal year) |

## Field 5 Elimination of All Forms of Violence Against Women (VAW)

## Basic Standpoint

OVAW is a serious violation of human rights that includes acts constituting a criminal offense.
OTo eliminate VAW, it is essential to close gender gaps in society, as well as to raise awareness. Support needs be tailored to each victim in accordance with the form of violence, attributes of the victim, and other factors.
OTo eliminate VAW, it is necessary to create a social environment intolerant of violence and to work to strengthen the foundation for the elimination of violence. Seamless, comprehensive, and professional support needs to be offered to victims from an early stage.
Oln response to the spread of COVID-19, it is important to develop consultation systems and create safe places for victims who cannot stay at home.

## Field 5 Elimination of All Forms of Violence Against Women（VAW）

## Key Initiatives and Targets（Sexual Crimes and Assaults）

－In FY2020，aim to discuss matters on penalties and criminal proceedings against sex crimes pointed out as issues by the Commission on Criminal Laws Against Sex Crimes．From FY2021 onward，take necessary measures based on the results of the discussion．
－In addition to stabilizing the administration and improving the quality of the one－stop support center for victims of sexual crimes and sexual violence，develop systems to lower the hurdle for consultation by increasing victim support centers in accordance with the state of affairs in each prefecture．
－Enhance education that teaches to respect toward life，as well as education suitable for children＇s developmental stages to prevent them from becoming perpetrators，victims，or bystanders．
－In addition to ensuring that strict disciplinary measures are taken against teachers，childcare workers who engaged in sexual misconduct against pupils or students，discuss stricter management of teaching licenses，including relationships with other systems and legal issues．
－To prevent sexual misconduct against children from taking place at educational／childcare facilities and other facilities for children，work to create the necessary environment，such as to consider asking prospective employees for a certification of no sexual conviction．
－Effectively roll out awareness－raising campaigns utilizing social media and other forms of media that can reach out to the young generation．

| Item | Current state | Target（Deadline） |
| :--- | :---: | :---: |
| Number of one－stop support centers for victims <br> of sexual crime／sexual violence in local <br> governments | 47 <br> （April 2020） | $\mathbf{6 0}$ <br> $(2025)$ |
| Number of prefectures where emergency <br> services are available 365 days a year at one－ <br> stop support centers，etc．for sex crimes and <br> sexual violence | 20 <br> （April 2020） | 47 <br> $(2025)$ |

## What is the one－stop support center for victims

 of sexual crimes and sexual violence？OPurpose
－Starting immediately after the incident，offer comprehensive support， as one－stop service whenever possible
－Alleviate physical and psychological burden on victims and aim to restore their health
－Encourage victims to notify the police，and prevent incidents from going unreported．

## OExpected core functions

－Coordination and consultation concerning support
－Gynecotocological care（emergency care，ongoing medical care evidence collection，etc．）

OAdministrator（Prefectures，public interest incorporated associations，private sector organizations，etc．）

One－stop support centers for
Campaign for Eliminating of Violence Against Women
（FY2020）
Focus topic，＂Eliminate Sexual Assaults＂

## 勝手にYESと <br> 思い込むのはNO！

Nationwide Speed dial

「\＃8891」
victims of sexual crimes and sexual violence

相手の同意のない性的な行為は，性暴力です。

11月12日～25日は「女性に対する暴力をなくす運動」期問

## Field 5 Elimination of All Forms of Violence Against Women (VAW)

## Key Initiatives and Targets (Spousal Violence)

- Discuss issues relevant to the prevention of spousal violence, such as expanding the scope of the form of spousal violence subject to reporting and victims of spousal violence who can file for protection orders, as well as how the perpetrators should be rehabilitated in the local community, and take necessary measures.
- Enhance victims support, such as to promote progressive measures taken by private sector shelters.
- Inform the public of the nationwide speed dial \#8008, and promote consultations that utilize social media, etc.
- Proceed with trial community programs to deter perpetrators' violence, and discuss necessary issues for full-fledged implementation, such as the formulation of guidelines for the implementation of collaborative programs between local government bodies and private sector organizations.
- Promote cooperation between institutions that handle spousal violence and child abuse.

| Item | Current state | Target <br> (Deadline) |
| :--- | :---: | :---: |
| Number of Spousal Violence <br> Counseling and Support Centers in <br> municipalities | 119 <br> (April 2020) | 150 <br> $(2025)$ |
| Number of Spousal Violence <br> Counseling and Support Centers <br> participating in a regional council <br> of countermeasures for children <br> requiring aid | 190 <br> (April 2018) | 323 |

## Field 6 Offering Support to Tackle Poverty and Other Livelihood Difficulties from Gender Perspective

## Basic Standpoint

(Source) - Relative poverty rate for Japan is based on Ministry of Health, Labour and Welfare, "2019 Comprehensive Survey of Living Conditions"

- Ranking was made by applying Japan's data for 2018 to the latest data for OECD Family Database member countries

## Employment of single-parent households

| 2016 | Single-mother households | Single-father households | General households |
| :---: | :---: | :---: | :---: |
| Employment rate | 81.8\% | 85.4\% | Women 66.0\% Men 82.5\% |
| Of employees: <br> Regular | 47.7\% | 89.7\% | Women 45.9\% Men 82.1\% |
| Of employees: <br> Non-regular | 52.3\% | 10.3\% | Women 54.1\% Men 17.9\% |
| Average annual work income | $\begin{gathered} 2 \text { million yen } \\ \text { Regular employees: } \\ 3.05 \text { million yen } \\ \text { Part-time,etc.: } 1.33 \\ \text { million yen } \\ \hline \end{gathered}$ | 3.98 million yen <br> Regular : 4.28 million yen <br> Part-time,etc.: 1.90 million yen | Average earnings Women 2.80 million yen Men 5.21 million yen |
| Child support agreement rate Child support receipt rate | 24.3\% | 3.2\% | - |

(Source) - Ministry of Health, Labour and Welfare, "Nationwide Survey on Single Parent Household (FY2016)" for single-mother
and single-father households
Ministry of Internal Affairs and Communications, "Labour Force Survey (2016) 15-64 years old" and National Tax Agency, "Statistical Survey of Actual Status for Salary in the Private Sector (2016)" for general households

OWomen are more likely to face poverty and other livelihood difficulties.
The relative poverty rate for single-parent households in Japan is $48.1 \%$ (2018), which is 34 th out of 35 OECD countries.
Olt is necessary to offer a range of support services as a safety net to tackle poverty and other livelihood difficulties, as well as to strive for improvement to ensure that the services are readily accessible.
OThe spread of COVID-19 has had a more serious impact on people in socially vulnerable positions.
Gender issues caused by stereotyped perception of gender roles have become all the more apparent.
OMinority groups may face intersectional difficulties. It is necessary to spread a correct understanding of people who have different attributes and to create, as society as a whole, an environment where diversity is respected.

## Field 6 Offering Support to Tackle Poverty and Other Livelihood Difficulties from Gender Perspective

## Key Initiatives and Targets

- Roll out comprehensive support to single-parent households and provide information on the support.
- Effectively make information available and raise awareness via videos and brochures to promote child support arrangements. Proceed with research and discussion to ensure the payment of child support. In addition, consider law amendment to review the child support system.
- Facilitate the labor force participation of elderly women and men, by steadily and smoothly implementing measures to secure employment up to 65 years of age and a place in the labor force up to 70 years of age.
- Offer support to job seekers based on the Act on Employment Promotion of Persons with Disabilities, Basic Policy on Employment Measures for Persons with Disabilities.
- With regard to the cases where women are faced with more complexed and difficult situations because of their gender, strive to understand the actual state of the issue where possible, promote human rights education and awareness-raising activities, and investigate and take relief measures when detecting a case where human rights violation is suspected.

| Item | Current state | Target <br> (Deadline) |
| :--- | :---: | :---: |
| Proportion of divorcing <br> couples who made child <br> support arrangements | $64.3 \%$ <br> (FY2019) | $70 \%$ <br> (FY2022) |
| Employment rate for <br> individuals aged between65 <br> and 69 years | - | Total (women <br> and men): <br> $51.6 \%$ <br> $(2025)$ |
| Actual employment rate for <br> people with disabilities (private <br> companies) | $2.11 \%$ <br> (June 2019) | $2.3 \%$ <br> $(2022)$ |

Proportion of divorcing couples who made child support arrangements

## Field 7 Support for Lifelong Health

## Basic Standpoint

Oln forming a gender-equal society, it is a major prerequisite that women and men fully understand physical differences between them, respect human rights, and are considerate to each other.
OThe physical and psychological states of women are characterized by significant changes depending on age, and the perspective of reproductive health/rights is especially important.
OSocial determinants of health and their impact differ between women and men. Receiving appropriate healthcare, in accordance with gender differences, is thus necessary.
Oln recent years, women's disease pattern has changed due to various factors, including increase in the number of menstrual periods resulting from decrease in lifetime fertility, increase in the age of first childbirth resulting from increased tendency to marry later, and increase in average life expectancy.
OAs an increasing number of women and men wish to undergo infertility treatment, measures to alleviate the financial burden and to balance treatment and work are needed.
OIn light of a 100-year life society, health support starting around menopause is important to further empower women and increase healthy life expectancy
OAttentive support by midwives, public health nurses, etc. is important to let expectant and nursing mothers, who are concerned about COVID-19, give
birth and take care of their children without worries.
OThe government will drive forward work style reform for doctors, and urge increased participation of women in the policy decision-making process.
Olt is necessary to create an environment where female athletes can flourish in good health and to support them to be able to stay active after retirement.

## Field 7 Support for Lifelong Health

## Key Initiatives and Targets

- Take measures to further increase the proportion of women who undergo cervical screening tests and breast cancer screenings.
- Consider allowing access to emergency contraception, without a prescription, for women who have the possibility of unintended pregnancy.
- Drive forward alleviation of the financial burden of infertility treatment and creation of a workplace environment that allows workers to balance infertility treatment and work.
- Engage in comprehensive education and awareness raising concerning health for the young generation, including providing knowledge on pregnancy and childbirth from an early stage and raising awareness toward the health of their own body, and create systems for consultation.
- Promote workplace training and awareness-raising activities concerning menopausal health, as well as establishment of systems for consultation.
- For further empowerment of female doctors, drive forward work style reform for doctors and measures to increase the proportion of women in leadership positions.
- Support the formulation of specific plans to achieve the proportion of female directors (40\%) set out in the Governance Code for Sports Organizations.
- Drive forward measures to prevent harassment against athletes, which includes taking and disseminating photos and videos with sexual intent. In addition, drive forward compliance education by each sports organization to eradicate various forms of harassment against athletes, etc.

| Item | Current state | Target (Deadline) |
| :---: | :---: | :---: |
| Number of Specialized Infertility <br> Consultation Centers | 81 prefectures and cities <br> (FY2020) | All prefectures, ordinance-designated cities, <br> and core cities <br> (FY2025) |
| Proportion of female practicing physicians <br> aged between 25 and 44 years | $31.8 \%$ <br> $(2018)$ | $33.6 \%$ <br> (As early as possible in the 2020s) |

## Field 8 Disaster Prevention and Reconstruction, and Environmental Issues from Gender Perspectives

## Basic Standpoint

OWomen account for $51.3 \%$ of the population. It is essential to fully take into account different types of impact of disasters on women and men in disaster prevention, disaster mitigation, and realization of a disaster-resilient society.
Oln the event of a disaster, gender issues (e.g. concentration of unpaid care work on women; gender-based violence (DV and sexual violence)) are amplified and reinforced, reflecting a stereotyped perception of gender roles in normal times. It is therefore important to include gender perspectives in all policies related to disaster prevention and reconstruction in normal times.

OVarious natural disasters have occurred since the Great East Japan Earthquake, and large-scale disasters such as Nankai Trough earthquake and Tokyo inland earthquake are anticipated. However, efforts for disaster prevention and reconstruction from gender perspective has not been fully put in place.
OThe national government will therefore work on the integration of gender perspectives into disaster responses. The national government will also share the recognition with local governments that women are major actors at each stage of preparation, initial response, evacuation, and recovery/reconstruction, and provide support to promote their initiatives that incorporate gender perspectives .

Proportion of female disaster management council members
and status of constant stockpile
Comparing the constant stockpile prepared by disaster councils with zero and 10-19\% female members, both based on regional disaster management plans, the latter are more likely to have various kinds of daily essentials including feminine and baby products.

- Sanitary goods (zero female member: 33.3\%, 10-19\% female members: 56.1\%)
- Baby diapers (zero female member: 36.6\%, 10-19\% female members: 57.1\%)

Western style portable toilets (zero female member: 17.9\%, 10-19\% female members: 42.5\%)
Cabinet Office, "First meeting of the Commission on Disaster Management and Reconstruction from the gender perspectives," Reference 3 Perspective of Women and Local Residents" by Mari Osawa

## Field 8 Disaster Prevention and Reconstruction and Environmental Issues from Gender Perspectives

## Key Initiatives and Targets

- Request the local governments to increase the proportion of female members in prefectural disaster management councils. In addition, ensure at an early stage that all municipal disaster management councils have at least one female member, and drive forward initiatives to increase the proportion of female members.
- Assign female employees and employees in charge of gender equality to disaster response headquarters and to ensure that male members of the headquarters understand disaster response from gender perspectives. Strengthen support in the event of a disaster, including dispatching national government employees and asking for cooperation from gender equality centers that have experience of being affected by a disaster or offering support.
- Share good practices to make gender equality centers hubs for promoting local disaster management from gender perspectives. In addition, encourage gender equality centers to support each other to be able to play an effective role in the event of a disaster.
- Make sure that heads of local governments and staff of disaster/crisis management and gender equality departments are familiar with "Guidelines for Disaster Prevention and Reconstruction from gender perspectives" and enhance training programs for them. The national government plans to monitor and evaluate the efforts of local governments based on the Guidelines.
- Disaster /crisis management and gender equality departments collaborate and work together more closely in normal times and drive forward disaster prevention and reconstruction initiatives from gender perspectives.

| Item | Current state | Target (Deadline) |
| :--- | :---: | :---: |
| Proportion of female members <br> of prefectural disaster councils | $16.1 \%$ <br> $(2020)$ | $30 \%$ <br> $(2025)$ |

## Field 9 Consolidation of the Social Systems

## Basic Standpoint

(Source) Calculated based on Management and Coordination Agency, "Special Survey of the Labour Force Survey" (February each year, but March each year from 1980 to 1982) from 1980 to 2001 and Ministry of Internal Affairs and Communications, "Labour Force Survey (Detailed Tabulation)" from 2002 onward.

(Source) Calculated based on Ministry of Health, Labour and Welfare, "2019 Vital Statistics (Final data)"

OSocial systems and practices may reflect a stereotyped perception of gender roles and gender-based bias and, as a result, may not function in a gender-neutral manner.
OEssential to establish gender-neutral systems and practices, in terms of the impact on the selection of social activities, to secure opportunities for women and men to participate in activities in all fields of society at their own will. To this end, it is necessary to constantly review overall social systems, including tax and social security systems, based on social and economic situations.
OThe government will carry out research on the impact of its policies on the formation of a gender-equal society. OTaking into account the issues that have become apparent under the COVID-19 pandemic, review of relevant systems will be strongly promoted to ensure the delivery of effects of various policies, including various kinds of benefits, to individuals who need them. In particular, a review will be considered, utilizing My Numbers, to shift the unit for calculation of benefits and burdens in relevant systems from households to individuals.

## Field 9 Consolidation of the Social Systems

## Key Initiatives and Targets

## [Consideration of systems that do not hinder the willingness to work]

- Proceed with further review of deductions to realize a tax system neutral toward individual choices.
- With regard to the social security system, further expand the scope of people covered by employee insurance. Consider scaling down the scope of Category 3 insured persons.

## [Establishment of legislation concerning family]

*System of allowing married couples to use separate surname

- Continue expanding the use of former surname and making relevant information available to eliminate inconvenience and disadvantage felt by people who have changed their surnames due to marriage.
- Proceed with the discussion on specific systems concerning the surname of married couples, with a close eye on the opinions of various layers of citizens and discussions in the Diet, and based on the judicial ruling.

## [Establishment of a basis for childcare and nursing care

 support that enables diverse decisions for women and men]- Further enhance childcare support in accordance with local needs, by creating more childcare facilities based on the New Plan for Raising Children in a Peaceful Environment and increasing the number of children accepted by after school children's clubs based on the New Comprehensive Plan for Children's After School Activities.
- Promote the establishment of childcare facilities and facilities for the elderly and disabled persons in housing complexes.

## Survey results on system of allowing married couples to use separate surname

| Item | Current state | Target <br> (Deadline) |
| :--- | :---: | :---: |
| Number of wait-listed children on childcare services | 12,439 <br> (April 2020) | To be set based on the New Plan for Raising <br> Children in a Peaceful Environment |
| Number of children registered with after school children's clubs | Approx. 1.3 million <br> (May 2019) | 1.52 million <br> (End of FY2023) |

## Field 10 Raising Awareness and Facilitating Understanding Through Education and Media for Both women and men

## Basic Standpoint

Sense of gender equality in society as a whole
 (subtotal) 3.1\%

(Source) Cabinet Office, Research on Women's Participation in the Policy Decision-Making Process (2020)

OAccording to the 2019 Public Opinion Poll on a Gender-Equal Society, $21.2 \%$ of the respondents felt that in society as a whole, women and men are "equal," while $74.1 \%$ of them answered, "Men are given preferential treatment." The factors behind these answers are a stereotyped perception of gender roles, gender-based bias and stereotypes, and unconscious bias rooted in our work styles and lifestyles, which have developed over time in people's minds.
OSuch perception and stereotypes are likely to develop over time from childhood and exist in both women and men. It is extremely important to avoid, for all generations including children, instilling and forcing to adopt a stereotyped perception of gender roles, as well as to change the mindset of both women and men. It is important to make gender equality a familiar issue easy to understand for a wide range of generations, from young children to the elderly.
OThe government will collaborate with local government bodies and other relevant institutions and organizations, respect human rights, and overcome stereotyped perception of gender roles. In addition, the government will prevent the negative impact of unconscious bias by reaching out to both women and men to raise awareness and facilitate understanding. Participation of women in the policy decision-making process will also be promoted in the fields of school education and media, in light of its significant impact on the development of people's mindset.

## Field 10 Raising Awareness and Facilitating Understanding Through Education and Media for Both women and men

## Key Initiatives and Targets

## [Education field]

- To foster the values of respect for equality between women and men, which is stipulated as an objective of education in the Basic Act on Education, adopt the gender perspectives at each stage of teacher training, recruitment, and development, as well as promote understanding of gender equality among teaching staff, including principals, and boards of education. In addition, further promote the philosophy of equality between women and men in school education and social education.
- Drive forward the appointment of women to decision-making positions, such as superintendents and members of the boards of education, principals, and vice principals,. In particular, further drive forward the appointment of female principals at schools. Develop female teachers through positive action and other initiatives.

| Item | Current state | Target <br> (Deadline) |
| :--- | :---: | :---: |
| Proportion of female principals and vice-principals in elementary <br> and secondary educational organizations |  |  |
| Vice principal | $20.5 \%$ <br> $(2019)$ | $25 \%$ <br> $(2025)$ |
| Principal | $15.4 \%$ <br> $(2019)$ | $20 \%$ <br> $(2025)$ |

## [Media field]

| Item | Current state | Target <br> (Deadline) |
| :--- | :---: | :---: |
| Proportion of respondents <br> who answered "equal" <br> when asked about the <br> sense of gender equality in <br> society as a whole | $21.2 \%$ <br> $(2019)$ | $50 \%$ for the present, <br> while the ultimate goal <br> is nearly 100\% <br> (2025) |

- Instill an awareness toward gender equality through the Forced Appearance in Pornographic Materials and JK Business Prevention Month (April), the Gender Equality Week (June 23-29), the National Conference for the Formation of a Gender-Equal Society (June), and the Campaign for Eliminating Violence against Women (November 12-25).
- Work on the expansion of women's participation in the policy decision-making process in the media field. In response to the sexual harassment case involving media and the government, take preventive measures and remedial action against and prevent recurrence of such cases as a government-wide initiative.

## Field 11 International Collaboration and Contribution on Gender Equality

## Basic Standpoint

OThe 2030 Agenda for Sustainable Development states, "Realizing gender equality and the empowerment of women and girls will make a crucial contribution to progress across all the Goals and targets." The government will fully recognize the significance of the issue, aims to enhance and strengthen the functions of the systems to strongly promote the policies (national machinery), and ensure that gender equality and gender perspectives are integrated into all government initiatives and reflected in policies (gender mainstreaming).
OThe government will proactively adhere to the Convention on the Elimination of All Forms of Discrimination Against Women and take measures in accordance with the Beijing Declaration and Platform for Action.
OJapan will ensure the implementation of summit-level and ministerial-level international agreements reached at G7, G20, APEC, OECD, and other meetings and proactively contribute to international discussions and initiatives.
OJapan will contribute to securing the peace, stability, and prosperity of the international community from the perspectives of women and girls' empowerment and gender, by promoting gender mainstreaming in Official Development Assitance (ODA) and taking measures based on the UN Security Council Resolution 1325.
OInformation will be provided to deepen citizens' understanding of international discussions and relevant government initiatives. In addition, the government will collaborate, cooperate, and engage in dialogues with not only government agencies but also all stakeholders, including the United Nations and other international organizations, local government bodies, the private sector, and civil society.

Minister Hashimoto making a statement

2020 APEC Women and the Economy Forum

The meeting (Minister Hashimoto participating in the meeting)

## Field 11 International Collaboration and Contribution on Gender Equality

## Key Initiatives and Targets

- Promote and implement measures to achieve the SDGs. Keep accurate track of the achievement level of gender equality and gender mainstreaming in the SDGs based on global indicators
- The Council for Gender Equality will ask for reports on the response to the concluding observations of the CEDAW and request the government to take necessary measures. Proactively provide information on Japan's initiatives at international conferences, including meetings of the Committee on the Status of Women. Seek collaboration with UN Women and other organizations.
- Ensure that summit-level and ministerial-level international agreements and discussions on gender equality at G7, G20, APEC, OECD, and other meetings are reflected in domestic policies, implemented, and used to improve the policies. Contribute to policy decision making by providing and sharing information based on Japan's experience and initiatives.
- Based on the UN Security Council Resolution 1325, implement the National Action Plan on Women, Peace and Security.
- Promote the appointment of women to key positions in embassies, consulates, and permanent missions.

| Item | Current state | Target (Deadline) |
| :--- | :---: | :---: |
| Proportion of women at each position level in embassies, <br> consulates, and permanent missions |  |  |
| Minister, Counsellor, <br> and above | $7.4 \%\left(^{*}\right)$ <br> (July 2020) | $10 \%$ <br> $(2025)$ |

## IV Implementation of the plan

## Basic Standpoint

Olt is important that the perspectives of gender equality and women's empowerment are in place and reflected in policies in all fields. The government will work to enhance and strengthen domestic systems to drive forward relevant initiatives. In particular, monitoring and impact assessment functions, among others, will be fully taken advantage of for increased effectiveness.

OLocal initiatives are extremely important. Support will be enhanced to enable local government bodies to closely collaborate with gender equality centers and other relevant local institutions and organizations, as each actor fully takes advantage of its functions, and promote gender equality and women's empowerment in the area.

## Key Initiatives and Targets

## [The Council for Gender Equality]

- The Council for Gender Equality is a domestic headquarters under the prime minister that strongly promotes gender equality. Let the Council demonstrate its comprehensive planning functions, coordination functions, monitoring and impact assessment functions, etc. to the maximum extent for all policies, and further strengthen the functions. In addition, conduct research and deliberate on issues that require intensive discussion for increased effectiveness of the Fifth Plan, as well as new issues, at the Council for Gender Equality.
[Gender statistics]
- To improve gender statistics, look into and disclose the status of statistics of various kinds. In conducting surveys, obtain data by sex whenever possible, and strive to obtain and analyze data by age and prefecture.
[Local initiatives]
- Focus on towns and villages that have not formulated a municipal plan for gender equality; collaborate with prefectures; promote understanding on gender equality by visualizing the progress and providing other information, collecting and sharing good practices, and dispatching experts; and facilitate the formulation of a plan in all municipalities.
- To enable gender equality centers to fully take advantage of their functions as a place that resolves local issues from the gender perspectives, collaborate with the National Council of Women's Centers, share knowhow and good practices, and facilitate interaction and collaboration beyond the local area.
Make the role of gender equality centers clear to local government bodies to take full advantage of the functions and strengths in each local area. Urge them to strengthen and enhance initiatives through organic collaboration with relevant organizations.

Proportion of municipalities with established plans for gender equality

| Item | Current state | Target <br> (Deadline) |
| :---: | :---: | :---: |
| Proportion of <br> municipalities with <br> entablished <br> plans for gender <br> equality | Cities and Wards: <br> I 98.3\% <br> Towns and <br> villages:69.4\% <br> $(2020)$ | Cities and wards: <br> 100\% <br> Towns and <br> villages:85\% <br> $(2025)$ |

## List of Numerical Targets of the Fifth Basic Plan for Gender Equality

|  |  |  |
| :---: | :---: | :---: |
| Item | Current status | Numerical Targets (Deadline) |
| Field 1. Expansion of Women's Participation in Policy Decision-making Processes |  |  |
| (Note: The government keeps these targets in mind when requesting political parties for actions. These targets are thus goals for the government to strive for, which don't restrict the independent action of political party, nor require achievement by a political party on its own.) |  |  |
| Proportion of female candidates for the House of Representatives | $\begin{aligned} & 17.8 \% \\ & (2017) \end{aligned}$ | $\begin{gathered} 35 \% \\ (2025) \end{gathered}$ |
| Proportion of female candidates for the House of Councilors | $\begin{aligned} & 28.1 \% \\ & (2019) \end{aligned}$ | $\begin{gathered} 35 \% \\ (2025) \end{gathered}$ |

(Note: The followings are the targets that represent the figures expected to be achieved as a whole through government initiatives, including requests to political parties, etc., promotion of visualization, fact-finding surveys, sharing of good practicies, and improvement of the environment, as well as collaboration with political parties, the Diet, local government bodies, the six local organizations, and other relevant actors. It neither adds constrains to autonomous action by each organizaiton nor is a target each organization aims to achieve. The figure for the current status represents the total for prefectural, ordinance-designated city, and municipal assembly elections in the 2019 nationwide local elections.)

| Proportion of female candidates for the nationwide local elections | $\begin{aligned} & 16.0 \% \\ & (2019) \end{aligned}$ | $\begin{gathered} 35 \% \\ (2025) \end{gathered}$ |
| :---: | :---: | :---: |
| Proportion of female public prosecutors | $\begin{gathered} 25.4 \% \\ \text { (March 31, 2020) } \end{gathered}$ | $\begin{gathered} 30 \% \\ \text { (End of FY2025) } \end{gathered}$ |
| Proportion of female national public officials hired through recruitment examinations | $\begin{gathered} 36.8 \% \\ \text { (April 1, 2020) } \end{gathered}$ | 35\% or higher (Every fiscal year) |

## Annual transition in the number of suicides

- The number of suicides in 2020 was 21,081 , an increase of 912 (about $4.5 \%$ ) over the previous year.
- By gender, the number of males decreased for the 11 th consecutive year, while the number of females increased for the first time in two years. The number of suicides among males is about 2.0 times higher than that of females.

## Provisions Incorporating Gender Perspectives in The Basic Disaster Management Plan (excerpt)

## Part 1 General Provisions

Chapter 3: Changes in Social Structure and Responses to Disaster Risk Prevention

- In order to improve regional disaster management capabilities through the implementation of disaster risk reduction measures that reflect the diverse perspectives of local residents, it is necessary to establish a disaster management system that incorporates gender equality and other diverse perspectives by active involvement of women, the elderly, the disabled, and others in the decision-making process and in the field of disaster risk reduction activities, through means such as by appointing them as members of local disaster management councils.

## Part 2: Measures Common to Each Disaster

## Chapter 1: Disaster Risk Reduction

## Section 3: Promotion of disaster risk reduction activities by citizens

2. Disseminating disaster risk reduction knowledge and conducting drills
(3) Consideration for people requiring special care in disaster risk reduction knowledge dissemination and drills

- When disseminating disaster risk reduction knowledge and conducting drills, due consideration is given to the diverse needs of persons requiring special care, such as the elderly, disabled persons, overseas nationals, infants, and expectant and nursing mothers, every effort is made to develop a system to support persons requiring special care in the community, and every effort is also made to give due consideration to the perspectives of both men and women, such as the different needs of men and women at the time of a disaster.
- The Government of Japan [Cabinet Office] and local governments should raise awareness that there is "Zero tolerance for violence against women" in designated evacuation shelters, temporary emergency housing, and places where volunteers work, so that disaster victims and supporters will become neither victims nor perpetrators of sexual violence and DV (domestic violence).

## 3. Improving the environment for disaster risk reduction activities of citizens

(1) Training and Strengthening fire corps and voluntary disaster-preparedness and voluntary crime prevention organizations operated by local residents

- The Government of Japan[Fire and Disaster Management Agency] and municipalities (prefectures) shall improve the facilities, equipment, and treatment of fire corps, which play an important role as the core of fire-fighting and disaster risk reduction in local communities, enhance their training systems, and facilitate the activation of fire corps by encouraging youth, women and other members to join, and foster their development.
- The municipalities (prefectures) shall foster and strengthen voluntary disasterpreparedness organizations and enhance the disaster management system of local communities through cooperation between fire corps and these organizations. They shall also encourage these organizations to become routinely active and conduct drills by training disaster risk reduction leaders and creating an environment in which all ages can participate, etc. Residents shall endeavor to participate in voluntary disaster prevention activities such as local disaster risk reduction drills. In doing so, efforts shall be made to promote the participation of women.

## Section 6: Prompt and smooth disaster response and preparation for disaster recovery and reconstruction

- In order to strengthen disaster response capabilities from a gender lens, the Government of Japan [Cabinet Office] shall inform the departments in charge of disaster management and of gender equality in each prefecture so that local governments (1) establish a mechanism of cooperation between the departments in charge of disaster management, gender equality, and the Gender Equality Center, and (2) promote the involvement of female officials and officials in charge of gender equality in the local disaster management headquarters.
- From gender-equality perspectives, local governments shall work to increase the ratio of women among the members of local disaster management councils and shall endeavor to clarify the roles of the departments in charge of gender equality and Gender Equality Centers in normal times and in times of disaster, so that the departments in charge of gender equality can liaise and coordinate disaster response within the office and at evacuation centers and the Gender Equality Center can serve as a base for promoting disaster risk reduction activities in the community.

## 8. Procurement and supply activities

- The Government of Japan [Ministry of Agriculture, Forestry and Fisheries, Ministry of Economy, Trade and Industry, and Ministry of Health, Labour and Welfare] shall give special consideration to the maintenance of a procurement system for the following commodities, and shall survey the amount available for procurement every year.
> Daily necessities: Underwear, blankets, work clothes, towels, small engine generators, tabletop cassette stoves, cartridge cylinders, sandbags, blue tarpaulins, flashlights, dry batteries, toilet paper, tissue paper, portable toilets and makeshift toilets, temporary toilets, diapers for infants and children, feminine care products, masks

## Chapter 2 Disaster Response

Section 2 Collecting and sharing information immediately after a disaster and establishing an emergency activities system
6. Emergency activities system in the Government of Japan
(3) Dispatch of government staff

- In order to strengthen the capacity to respond to disasters from a gender lens, the Government of Japan [Cabinet Office] shall, based on the damage situation, dispatch government staff to the disaster area as necessary, and provide necessary support and advice to ensure that the departments in charge of gender equality are incorporated into the local disaster management headquarters.

## Section 6 Acceptance of evacuess and information provision activities

3. Designated evacuation shelters, etc.
(2) Management of designated evacuation shelters

- Municipalities shall promote women's active involvement in the operation of the designated evacuation shelters, and take into consideration the different needs of men and women from gender-equality perspectives. In particular, efforts shall be made to operate and manage the shelters in consideration of the needs of women and families raising children, by, for example: setting up women-only drying areas, changing rooms, and nursing rooms; having women distribute sanitary products and women's underwear; and ensuring safety in the shelters by conducting patrols in pairs comprised of one woman and one man, and distributing security buzzers.
- In order to prevent sexual violence and DV against women and children in designated evacuation shelters, etc., municipalities shall make efforts to ensure the safety of women and children by, for example: setting up women's and men's
toilets in separate locations; setting up toilets, changing rooms, and bathing facilities in places where they can be used safely day and night; installing additional lighting; and displaying posters to warn people about sexual violence and DV. In addition, in cooperation with the police, hospitals, and women's support groups, efforts should be made to provide information on counseling services to victims of sexual violence and DV.

## 4. Temporary emergency housing, etc.

(3) Operation and management of temporary emergency housing

- The municipalities (prefectures) are to conduct the appropriate operation and management of each temporary emergency housing. In such cases, efforts shall be made to ensure safety and security in emergency temporary housing, to provide psychological care to prevent "lonely deaths" and social withdrawal, to form and manage a community of residents, and to promote the participation of women so that the opinions of residents, including women, can be reflected. Also, consideration shall be given to the acceptance of pets in temporary housing, as necessary.

## 7. Measures for people having difficulty returning home

- In the event that public transportation is suspended in the Tokyo metropolitan area and other major metropolitan areas (including due to the effects of ash falling from volcanic disasters), and a large number of people have difficulty returning home on their own, the Government of Japan [Cabinet Office and the Ministry of Land, Infrastructure, Transport and Tourism] and local governments shall prevent people from returning home all at once by promoting the basic principle of not starting to move unnecessarily, and as necessary, in securing temporary accommodation facilities, make every effort to operate temporary accommodation facilities taking into consideration the differences in needs of men and women and the diverse needs of persons requiring special care.

## Section 7 Procurement and supply activities

- In order to efficiently procure and ensure the daily necessities to maintain the lives of disaster victims such as food, drinking water, fuel, and blankets and to supply and distribute them according to victims' needs, the relevant organizations shall make efforts to share information and cooperate with each other for the supply of goods and materials that they have stockpiled as well as the procurement and transportation of goods by utilizing the goods procurement and transportation
coordination support system, and shall take actions in accordance with the following policies. Considering that the goods required in disaster areas will change over time, careful attention shall be paid to procuring goods in a timely manner. As well as considering the actual conditions of the disaster area, by, for example, providing fans in the summer and heating equipment and fuel in the winter, the relevant organizations take into consideration the needs of persons requiring special care and the differences in needs between men and women.

## Chapter 3 Disaster Recovery and Reconstruction

## Section 1 Determination of the basic direction of the recovery and reconstruction of the region

- In the recovery and reconstruction of the disaster-affected areas, the participation of women shall be promoted in every place and organization for recovery and reconstruction from the perspective of gender equality. In addition, the participation of persons with disabilities, the elderly, and other persons requiring special care shall be promoted.

## Section 3 How to proceed with planned reconstruction

2. Community development for disaster risk reduction

- Local governments shall implement community development for disaster risk reduction that takes into consideration the safety of residents and environmental conservation, aiming to prevent the recurrence of disasters and create a more comfortable urban environment. In doing so, based on the principle that community development is not only for the benefit of current residents but also for future residents, local governments shall clarify the ideal form of the city at the planning stage, aim for community development that will cause no regrets in the future, and make efforts to seek the understanding of residents. At the same time, efforts shall be made to improve the environment so that the opinions of persons with disabilities, the elderly, women, and others can be reflected.
- The Government of Japan and local governments shall give due consideration to the maintenance, recovery, and reconstruction of local communities when preparing recovery plans for the disaster-affected areas, taking into account the significant role that local communities play in the material and psychological recovery of the disaster-affected areas, including the maintenance of the mental health of disaster victims. At the same time, efforts shall be made to improve the environment so that the opinions of persons with disabilities, the elderly, women, and others can be

## reflected.

## Part 5 Measures against storm and flood damage

## Chapter 1 Disaster Risk Reduction

## Section 2 Promotion of disaster risk reduction activities by citizens

3. Improve the environment for people's disaster risk reduction activities
(1) Training and strengthening fire corps, flood prevention groups, flood prevention cooperation organizations, voluntary disaster-preparedness organizations, and voluntary crime prevention organizations

- The Government of Japan [Ministry of Land, Infrastructure, Transport and Tourism] and municipalities (prefectures) shall provide training and practice for flood prevention groups and flood prevention cooperation organizations, develop facilities to serve as bases for flood prevention activities in the event of disasters, and enhance flood prevention materials and equipment. In addition, the Government of Japan and municipalities (prefectures) shall promote the revitalization of flood prevention groups by encouraging the participation of youth and women as members. It will also secure persons who will carry out flood prevention activities by designating various entities, such as NPOs, private companies, and residents' associations as cooperative organizations for flood prevention to train them and enhance their skills.

[^0]:    *The target represents the figure expected to be achieved as a whole through government initiatives, including requests to political parties, etc., promotion of visualization, fact-finding surveys, sharing of good practices, and improvement of the environment, as well as collaboration with political parties, the Diet, local government bodies, the six local organizations, and other relevant actors. It neither adds constraints to autonomous action by each organization nor is a target each organization aims to achieve. The figure for the current state represents the total for
