My message on ending violence against women and child abuse.....

Я выросла в семье наполненной любовью и заботой. Порядочность, для меня важная вещь в человеке. Именно она включает в себя целый комплекс нравственных качеств, без которых человек перестает быть человеком. Именно поэтому я поддерживаю движение против насилия по отношению к женщинам и детям. Мы должны уважать друг друга, заботиться о своем ближнем, и быть поддержкой в трудное время. Это и есть красота! И она, как говорил великий писатель Достоевский, спасает мир.

I grew up in a broken family because of an abusive father. He came home late at night, drunk, abused my mother and went to bed as if nothing happened. He later started to also hit the kids and is when my mother ran away with us. We struggled many years but now we are strong and independent women.

Násilí na ženách a dětech je velkým problémem i v 21. století a
třeba se skoro čeká, že ten má světe. Má mnoho podob, některé je
mezi fyzické útoky, ale také psychické, sexuální a v neposlední řadě
i kybernetické. Odhadová se ve veřejné sféře, ale často také
v soukromí, kde pachatelem je někdo, koho žena má
a komu důvěřuje. Mnoho žen se proto obrací/ptají příkrm,
že se staly, nebo ještě pořád jsou obětmi násilí.
Vynutit někoho k tomu násilí (sexu) není snadné, ale
něm to nevadí. Násilí nemusí být doprovázeno na
okrajový problém, musí být řešeno a pokračováno.
Klíčovými by měla být prevence, informovanost a aktivní
pomoc obětem. Někdy proto lidé jdou a šepu, každý

DENMARK TOOK IT'S FIRST STEP TOWARDS ENDING DOMESTIC VIOLENCE AND CHILD ABUSE WHEN COUNTESS DANNER SET UP THE FIRST PLACE HOUSING WOMEN AND CHILDREN FLEING FROM A VIOCENT HOME. SINCE THEN DENMARK HAS COME A LONG WAY - HOWEVER STATISTICS SHOW THAT CHILD ABUSE IS INCREASING SO 1 IN 11 CHILDREN ARE VICTIMS OF ABUSE. WHAT IS SHOWN IN THE STATISTICS AND WHAT IS HAPPENING IN REAL LIFE MIGHT BE TWO DIFFERENT STORIES. THE NUMBERS MIGHT BE EVEN HIGHER.

THE ISSUE WITH THIS CASE IS THAT VIOLENCE OFTEN LEAVES THE VICTIMS PETRIFIED WITH FEAR - MAKING THEM UNABLE TO SPEAK UP FOR THEMSELVES AND SEEK HELP.

THAT IS WHY IT IS SO IMPORTANT THAT WE, IN DENMARK, NEED TO RAISE AWARENESS ABOUT THE DOUBLE RIBBON CAMPAIGN. SO THAT WE WON'T FORGET AND WON'T LET THE WOMEN FORGET THAT THEY HAVE A PLACE TO BE SAFE. TO LET THE CHILDREN KNOW THAT THIS IS NOT THE WAY LIFE SHOULD BE, SO THAT THEY CAN HAVE THE COURAGE TO ASK FOR HELP. THE HELP THAT WE AS A SOCIETY AND A COMMUNITY HAS THE RESPONSIBILITY TO PROVIDE.

My message on ending violence against women and child abuse....

I try my best to encourage all women and children to remove themselves from a situation where they are not happy, being abused, not feeling safe etc. and choose for themselves and build a better life.

I myself also lived in a youth care home. Look at where I stand now, something to be proud of!

Through my volunteering I try to inspire others. Almost all my volunteer work is related to this topic. I'm a mentor for a 17 year old girl in a youth care program, I've played games with children of all ages from an asylum seekers' center and I help a refugee family with the Dutch language.

My message on ending violence against women and child abuse.....

When we speak of violence, we speak of a very concrete reality between women, men, elderly, including children's abuse. A serious human rights violation affects thousands of people and none continue to increase. It is seen as an act of domestic violence, all abuse at emotional, social, physical, sexual, financial, and persecution level. It is not only women who suffer from this act, but also children who have to accept passively. Also the abuse of children, considering violence under all forms, may cause serious problems in their development, with long-term repercussions.

In Japan, record number of child abuse with register of more than 80 thousand cases are recorded. A scary number that makes us reflect and arrange solutions. These actions are a serious violation of human rights. Everyone has the right to live with good conditions and protect. Say NO to VIOLENCE

SAY NO TO CHILD ABUSE! Criminal acts, can't be silenced!
In order to eliminate domestic violence and child abuse from happening at home, everyone's cooperation is essential. I'm wearing the double ribbon badges.
Are you with me? The difference can be made from you ♡

My message on ending violence against women and child abuse.....

Gender Inequality has persisted for centuries due the gap between man and woman. In Romania cases of violence against woman, and abuse against girl child, especially in gipsy communities were on rise.

My message to the members of the society, whether in Romania or Japan is to recognize my practical approach in dealing with this problem by covering some steps:

1. To redefine "gender equality" with "gender equity". By gender equity, I mean fairness and justice in all spheres of life.
2. To include a course of "gender equity" in the curriculum of all primary schools in Romania and build a conscious in our children from an early age.
3. To replace the gender column from all applications.

My message on ending violence against women and child abuse.....

This topic is very relevant in my country right now as we currently don't have any laws against domestic violence. I am very proud to be an ambassador of the "purple ribbon" movement. There are several things that Russian people are already doing to combat this issue: they go on strikes to bring attention to this issue and try to influence the government to create relevant laws, people are collecting signatures and petitions on social media, they are creating various social media movements and projects to raise awareness for this issue (including my video for MI 2019 and "purple ribbon" movement). What else can we do to bring more attention to this problem? This is happening not just in my country but all over the world!!!

① In addition to taking legal actions we have to talk more about this issue. We should be hosting charity events to educate people about this social problem. We should be producing relevant educational videos, talk about it on social media and create informational booklets to distribute around and show people where to get help in case they face any potentially dangerous situations!

② Next, in order to protect children we should educate young parents and any families at risk as well as create educational programs for parents of teenagers. In addition, ambassadors, MI 2019 can volunteers and represent this movement in their communities.

We can lead by example by showing younger generation the beauty of friendship, love, humanity thus helping them to develop positive qualities and characteristics. We are increasing the chances of eliminating this problem by educating people in our country and all around the world.

My message and my goal is to raise awareness for domestic violence against women all around the world!!! Thank you.

My message on ending violence against women and child abuse.....

Boj proti násiliu páchaného na ženách a deťoch by mal byť silno zakotvený v každom modernom štáte. Žijeme vo svete, kedy sa o tragických skutkoch páchaných na ženách a deťoch hovorí stále viac, a napriek tomu sa stále dejú. Na boj s nimi pritom nie sú potrebné veľké finančné investície. V prvom rade musíme násilie začať brať vážne a aktívne spolupracovať na tom, aby sme vedeli obetiam zabezpečiť tú najvyššiu ochranu.

Podporiť ich, aby sa nebáli prehovorieť, prejavieť im dôveru a ich situáciu nezľahčovať. Mimoriadne dôležité je aj vzdelávanie, pretože práve dobrý pedagóg môže výrazne vplyvať na budúce generácie a prispieť k eliminácii rodovo podmieneného násillia. Nie je ľahké si priznať, že aj v tomto storočí ešte takéto násillie vôbec existuje. Dôležité ale je, aby sme jasne dali najavo, že bude skutočne potrestané, pretože inak ho nezastavíme.

My message on ending violence against women and child abuse.....

Since I was a child, my parents have instilled in me very strong values about respect and equality. My mother is a gender violence cop, so I cannot imagine, that a mindset that ignores this happening still exists today, because we are a society that is advancing and that is increasingly free and open-minded.

Both, gender violence and child abuse are punishable under the law of my country, but this is not the case in many others, so all the countries that see this abuse as horrible and punish it, would have to unite and inculcate other countries and promote that these abuses disappear through the education of future generations and the re-education of current ones towards a mentality that protects all collectives.

My message on ending violence against women and child abuse.....

All Women can be victims of domestic violence, regardless of their profession, social class or ethnicity. A woman should not be afraid of someone who is supposed to love them. A lot of women live in constant fear and don't have the courage to speak out. That's needs to be changed. We can never speak to much about it we can only speak to little. To stop or prevent domestic violence we can use social media to spread awareness, provide hotlines and safeplaces for women all over the world and also teach women about warningsigns of domestic violence. Having a child should be about unconditional love, protecting and taking responsibility of an innocent life. The society must take responsibility so childhood is carefree, fun and focuses on schooling and development of the child. The society must provide different services, for example in school to prevent destroying more childhoods, because children are our future and pride. We need to talk about this problem more.

I became interested in the topic of "Violence against women and child" when an elderly woman whom I cared for was regularly abused. This topic breaks my heart, and I want to help every woman and child, who has experienced this pain, humiliation and resentment. In Kiev we have centers that provide short term housing for women and children, as well as free consultations with psychologists. Unfortunately in Ukraine as well as many other countries, this topic is taboo. Can you imagine if every girl in the world would unite to raise the alarm and force people to pay attention?! We could eliminate these atrocities! Together, we can get this problem out in the open, and let these women know they have somewhere to turn.

"I maika'i ke kalo i ka 'ohā."

For Hawaiians we talk about our genealogical connections to kalo. It is a value based upon its offshoots. The conditions in which we raise our future generations is our responsibility and with the personal trauma that I have encountered, it is imperative that we create a space for our wahine and keiki of the Kanaka maoli.

As a survivor of domestic and child abuse, I will use my voice to elevate others who share stories like my own. Today, we battle with formal traditions and respect. However, I believe that we are the generation that has created the space to speak out against acts of violence and have created a community that is ready to receive us. It took one voice to change my life, my hope is you will have the courage to raise yours.

My message on ending violence against women and child abuse.....

Violence of any kind, moral or physical is unacceptable and intolerable. But it is even more so, when it is directed towards a child or a woman. We must all stand up against violence, as one!

Violence against woman & children is not inevitable.

Everyone has a role to play & prevention starts early.

"Education is the most powerful weapon which you can use to change the world" as Nelson Mandela use to say. So we ^{can all} ~~all~~ can do something to stop acts of violence and react! We can, work to understand the mechanisms of violence better, carry out prevention and awareness campaigns, accompany the victims, set up prevention sessions at school on topics like like "girls and boys equality."

Today I stand against violence and always will.
Cheer all women and children!
